Profile

I am a passionate Web Developer and MERN Stack Developer with hands on experience in building responsive user-friendly and scalable web applications. Skilled in HTML, CSS, JavaScript, React, Node.js, Express.js and MongoDB. I enjoy solving real world problems through clean code and modern development practices. Always eager to learn new technologies and improve my skills to deliver high quality projects.

Work Experience

2020 – 2023

Gulshan School (Junior Section) -1 Years

Unique Primary & Secondary School – 2 Years

- Taught junior students, improved communication and teamwork skills.

2025

Freelance Frontend Developer (Remote)

Self-Projects

- Designed landing pages, product pages, and portfolio websites using HTML, CSS and JavaScript. Deployed projects on GitHub.

Projects

- **Personal Portfolio Website**

Created a personal portfolio website to represent my journey as a Web Designer and Frontend Developer. The portfolio highlights my expertise in HTML, CSS and JavaScript through various responsive and interactive web pages. It demonstrates my ability to structure clean code build user friendly layouts and continuously improve through practice and learning. The site reflects my passion for web development and commitment to growth in the field.

- **Simple Calculator**

Developed a basic calculator using HTML, CSS, and JavaScript. It performs standard arithmetic operations including addition, subtraction, multiplication, and division. The project demonstrates my understanding of JavaScript logic event handling and DOM manipulation. It also reflects my ability to create clean and responsive interfaces using core frontend technologies.
